

Global Program Manager MSC ASC to Business Assurance

Are you keen on food quality, quality management systems and auditing? Do you strive with responsibility and project management? Do you like working independently with support from a competent and positive team? Then we are looking to add you to our competent and collegial team!

About Intertek

Intertek is a leading global provider of complete quality assurance solutions. Our network of more than 1,000 laboratories and offices and over 46,000 employees in more than 100 countries delivers innovative solutions in quality assurance, testing, inspection, and certification tailored to our customers' operations and supply chains - We bring quality, safety and sustainability to life!

Keywords: Food, food safety, management system, product standard, ISO 22000, FSSC 22000, ISO 9001, ISO 14001 BRC, IFS, MSC, ASC, EU eco-requirements.

At Intertek we strive to create an inspiring and challenging work environment with sparring possibilities and a lot of personal development for our team. Our lead auditors work independent with a lot of freedom and influence on their own workday but with high support from the rest of our professional team.

Who are we looking for?

We are looking for a person with experience within the seafood area and MSC Chain of Custody Standard, if you have experience within one or more of the following standards: BRCS, IFS Food, FSSC 22.000, GMP+ it will be a great advantage.

Do you like to take responsibility within following areas:

- Ensure that the internal processes and procedures for Intertek MSC CoC scheme is in conformity with the accreditation requirements (ISO/IEC 17065 and scheme specific requirements).
- Undertake communication and cooperation with the accreditation body and scheme owner

- Implement internal procedures worldwide and perform training.
- Ensure Key Performance Indicators are monitored.
- Take a 'helicopter view' overseeing and ensuring integration between the MSC CoC and other schemes within Intertek.
- Perform technical reviews and certification decisions on MSC CoC audit files
- Approve and monitor skillsets for auditors, tech reviewers etc.
- Participate in global technical meetings and local meetings.

About you:

- You have an academic education in the field of food and at least 5-10 years of experience with quality management. It is an advantage to have experience from different food sectors, such as meat, fish, dairy, etc.
- You have experience as a quality manager, lead auditor or similar. You have a great interest in quality management and a desire for education and learning. We offer tailor-made training courses that will bring you up in the elite of quality management.
- Your personal qualities are very important. You must have a talent for international communication and customer contact and be structured and analytical in your approach.
- English in writing and speaking is a requirement.

What we offer?

- An exciting and challenging job with good development opportunities and competent colleagues.
- The position offers varied tasks with travel, customer visits and inspiring colleagues locally and globally
- An attractive package with salary and health insurance

What should you do?

The selection of applications is ongoing, and we therefore encourage you to send your CV as soon as possible. Any questions are answered by Anne Thyssen, Operations Manager on phone: 0045 3274 2879.
